

SAVE THE ENDANGERED BLACK HARRIER

The Enviro-Trust is working with the Greater Kromme Stewardship on a project to create refuge for this endangered raptor. This beautiful bird of prey is found nowhere in the world except South Africa and we are fortunate that there is a small breeding population here in the Kouga Municipality.

Its habitat is shrinking fast and the Black Harrier could go extinct within 75 years unless we intervene. We are raising awareness of the bird's plight and we are raising funds for the complex process of creating protected areas for them to breed, roost and forage in.

How can you help? By becoming a member of the Enviro-Trust and adding to our numbers, giving us more weight in public discussions. By making a donation directly to the Black Harrier project. By actively looking for Black Harriers as you drive around and letting us know if you see one – photograph if possible.

WhatsApp Your Sighting to The Kromme Enviro-Trust
On +27 63 507 5829

We need to know date, time of sighting, location (GPS co-ords if possible) and what the bird was doing – flying commute, foraging, perched etc....
